

Accountability Forms

Challenge Cup

One Design

The Trophy Committee administers an accountability program for the trophies, trophy cases and banners owned by the Gulf Yachting Association. This program requires the recipients of these items that move from club to club to sign a responsibility statement to accept the award. A member of the Trophy Committee will notify the host club and make arrangements to have the forms (which can be accessed with the links above) signed and returned to the committee. This program is designed to assure the location of these items and the person responsible for the items is recorded, that the trophies are available for awarding, and accountability can be assured. Any questions with regard to the accountability program should be addressed with the Trophy Committee chair or his designated representative.

	For GYA provided trophies, contact GYA Sec/Treas to assure delivery to regatta.
